EPHESUS

TEMPLE OF ARTEMIS

Temple of Artemis, especially because this is an important value for us because it is one of the seven wonders of the world.

OLIVE TREE

Since the Mediterranean climate is seen in the Aegean region, it receives the sun almost 300 days a year, so it hosts quite a lot of plant species in cultivar care, moreover, most of these plants are used in the food and medicine sector, olive trees and grapes, I want to open a special parenthesis here because these are one of the two important factors that make the Aegean economy rise because wine and oil are produced from them
