OX PLOW

- What is a plow, what does it do?
- Plow. They are tools that make the physical structure suitable for cultivated plants by overturning and breaking the soil. Soil tillage with a plow is called double plowing.

PITCHFORK

- What is the pitchfork used for?
- pitchfork; a large fork-shaped wooden agricultural tool with several teeth. It is mainly used for tossing or loading loose materials such as hay, straw. Usually 3-5 teeth.

QUERN

- What is a quern and how is it used?
- Hand mill was used to grind wheat in ancient times. As its name suggests, it is operated by hand. The wheat placed between two large round rocks is crushed, crumbled and finally turned into flour as the rocks are rotated.

TULUK

- What is Tulluk?
- * Although it is a local tradition, it is almost forgotten.
- * The inclusion of animal skins in our local cuisine was actually a tradition left over from poverty.
- * Techniques for making buttermilk and butter with a tuluk are different in some regions. The technique here is to make buttermilk and butter by shaking the all-tied tuluk.

TULUK

WINDING WHEEL

- A spinning wheel is a tool used to spin yarn from natural or artificial fibers.
- It replaced the spindle used for spinning yarn. The first step in mechanizing the spinning process was to place the spindle horizontally and allow it to be turned by hand by a large wheel. The big wheel spinning wheel is an example where the fibers are held with the left hand and the wheel is slowly turned with the right hand.

WINDING WHEEL

TUMBREL

- What is the use of tumbrel?
- The tumbrel cart is the name of an ox cart used in the past. Generally, oxen are driven in front of these carts, which are used in the village. It was also used to carry ammunition to the front during the great wars.

HAYIT BASKET

- This is a basket used for fishing. It is knitted using tree branches and made into a basket. Bread and bait are thrown into it. There is only one entrance, the fish can get in but cannot get out again, and they become bait, so they catch fish. The metals that are still used today are more common.
